Summary

Frontend Developer with expertise in React, JavaScript, and responsive web design, passionate about creating intuitive and high-performance user interfaces. Aiming to leverage my skills in building seamless, user-centric applications that deliver exceptional digital experiences.

Experience

Frontend Web Developer Intern – Zepzi Tech Pvt Ltd

■ Oct 2024 – Mar 2025

- Built and deployed 10+ dynamic UI components in React.js, boosting user engagement by 25%.
- Integrated RESTful APIs to handle real-time data from multiple sources, improving system reliability.
- Optimized performance with lazy loading and code splitting, reducing page load time by 30%.
- Implemented responsive layouts and cross-browser compatibility, ensuring smooth performance on all devices.

Projects

Portfolio Website (HTML, CSS, JS)

- Designed a fully responsive personal portfolio showcasing projects and skills, achieving 95+ Lighthouse accessibility score.

Weather App (HTML, CSS, JS, OpenWeather API)

- Developed a weather app delivering real-time forecasts with dynamic visualization for 100+ cities.

To-Do App (React.js, CRUD)

- Built a cloud-based to-do manager with real-time sync across devices, enabling seamless task management.

Technical Skills

- Languages: JavaScript, C++, HTML5, CSS3
- Frameworks/Libraries: React.js, Tailwind CSS
- Databases: MongoDB
- Tools: Git, VS Code
- Concepts: API Integration, Performance Optimization, Responsive Design, Agile Development
